About the Book

India, with its rich heritage of knowledge and wisdom, has always been seen as a beacon of learning. The ancient Indian universities Takshashila, Nalanda, Vallabhi, and Vikramshila too witnessed this multidisciplinary learning environment and amply demonstrated the type of great success that large multidisciplinary research and teaching universities could bring. India immensely needs to revisit history and bring back this great Indian tradition to develop all round personalities of the students. The National Education Policy (NEP) 2020, a visionary roadmap, aims to propel India to new heights and transform it into a "Vishwa Guru Bharat". NEP-2020 advances a multidisciplinary and holistic approach in a more extensive way and expects to encourage solidarity and honesty of information. Multi-disciplinary education offers to fabricate character, persona, and acumen, and constitution, positive bits of knowledge and standpoint of students, changing them into adaptable and balanced people. The present book is a compilation of selected papers on the theme "Exploring the Glorious Past, Promising Present and the Future Roadmap to Vishwa Guru India". IQAC and Research Cell of GHG Khalsa College of Education, Gurusar Sadhar (Ludhiana) acknowledges the support of ICSSR in the publication of this book.
