**Endeavours of G.H.G. Khalsa College of Education, Gurusar Sadhar, Ludhiana to combat Covid-19 pandemic challenges (Report of 20 days-June 5-24, 2021)- Report presented to Mahatma Gandhi National Council of Rural Education, Hyderabad about Beat Covid Campaign on July 31, 2021**

**Esteemed dignitaries, honorable Teacher fraternity and citizens of India!**

**A very warm good afternoon to all**

It is my esteemed privilege to represent a pious institution G.H.G. Khalsa College of Education, Gurusar Sadhar established in the name of Sixth Sikh Guru HarGobind Sahib Ji and having a proud heritage of excellence and innovation since 1955. Our college is one of the pioneer institutions of Teacher Education in the state of Punjab and has been accredited with NAAC Grade “A” (CGPA 3.30 for consecutive 2 cycles, Cycle-II). The college has also received the honor of being awarded the status of a Mentor College under UGC Paramarsh Scheme. The college has many milestone achievements and has been proactive in discharging its responsibilities especially towards the rural part of the country.

The NSS wing has of G.H.G. Khalsa College of Education, Gurusar Sadhar has been functional since more than 4 decades and has trained thousands of NSS volunteers in the past. Presently, the wing under the patronship of Dr. Pargat Singh Garcha, Principal Dr. Jasleen Kaur and Dr. Rachhpal Singh, N.S.S. coordinators has discharged a responsible role to fight off the dreaded effects of covid-19 pandemic. Not only has the wing fulfilled the assigned duties by the the Ministry and NSS Department, Panjab University, Chandigarh, it has also been instrumental in bringing significant developments inside and outside college campus. The wing had geared up in the wake of the pandemic call in the initial phase itself and created awareness among the students and general public by preparing and posting short You tube videos on the college You Tube Channel and was already active in creating awareness regarding covid 19. All other

The beat covid campaign helped the NSS wing to intensify its efforts in beating the second wave of covid-19 which had hardly hit the country. As you all know that the second wave of covid 19 was quite intense in the rural parts of the country and are college is located in the rural area. hence it was all the more necessary that the NSS volunteers should double their efforts of creating awareness regarding the spread of covid-19 the precautions required the importance of vaccination and also extending support to the people suffering from coronavirus.

**Therefore the NSS wing carried out the beat covid campaign from June 5 to June 24, 2021**

As instructed by the authorities an orientation of the NSS volunteers regarding the campaign was done through the WhatsApp group in which the program officers acquainted the students about the objectives of the campaign and the proposed activities . Nearly 60 students were given the orientation out of which 50 students actively joined the campaign. 5 faculty members Dr. Jasleen Kaur, Dr. Rachhpal Singh, Dr. Jagjit Singh, Dr. Jasbir kaur Sarna and Mrs. Rupinder jit Kaur were also involved in this campaign to guide and organise the activities to be carried out by the volunteers. **The students were then divided into group of 5 teams as instructed, i.e. hospital management team, Non hospital management team, medical Essentials team, family support team and psychosocial support team.** Each team was under the supervision of 1 teacher incharge.

A meeting of the teacher in charges and student representatives of each team was held with the principal, one week before the campaign had to started. A proper plan was chalked out about the activities of the 20 days and the functioning of each team, the nature of duties to be discharged, arrangement of resources, sources for gathering information etc.

As during the time period between 5th June and 24th June covid wave was quite intense in the country, the student volunteers were not called in the college campus, all the Communications were made through the WhatsApp group specially formed for this purpose. The students were instructed to carry out the activities in their nearby areas, as majority of the students of our college belong to rural areas we could cover nearly 21 villages in this campaign. An added advantage which we got was that 15% of our students come from all India quota and Airforce Station, Halwara is in the vicinity, many student volunteers were from different states of India, therefore the beneficiaries of this campaign were beyond the state of Punjab as well.

**Activities of hospital management team**

We wanted to keep the activities of the campaign more service oriented rather than being heavily budgeted. As the students were functioning from their homes we did not want to put them in any type of financial or health crisis. So they were instructed to follow the guidelines of covid-19 while discharging their duties. The student volunteers in the hospital management team were asked to visit nearby vaccination centres for covid-19 and render services in helping the staff of the centres to organise the vaccination campaign in a more organised manner. Our volunteers help in setting up the stage, that is to say they counselled the people in the waiting areas of the vaccination centres, this was required to help people break myths about the vaccination especially in the rural areas. Our volunteers counselled them by telling the benefits of the vaccination and removing their doubts and fears they also helped in queuing up the people to avoid chaos at the vaccination centres, They helped in maintaining social distancing and also help the hospital staff as and when required. Our volunteers helped in vaccination centres in gurusar Sudhar, mullanpur, Jagraon and Raikot.

**Personally donated a humble sum of Rs 11000 to Hemkunt foundation which was actively providing oxygen cylinder at that time**

#### **Non hospital management**

The duty of this team was to carry out awareness in their neighborhood and make the people aware about the covid-19 pandemic the precautions to be taken the role of sanitization and social distancing ,wearing a mask and getting oneself vaccinated The beneficiaries were in the villages of sudhar, raikot, mullanpur, Jagraon, Dolon Kalan, lohgarh, sidhwan khurd, Bhaini Baringan for vaccination- above 100 families. Flexes of Size 5\*4 feet were prepared and were installed by volunteers at 40 nearby places of village/ Block Sudhar. Students also prepared posters and used them during these awareness campaign.

#### **Family Support Team**

This pandemic has been very heavy on the psychological economic and social well-being of the people, Hence a family support team was formed to extend support to as many families as possible. As expected the students distributed **ration to poor families the unemployed** people but we were surprised when our volunteers rendered a range of services for the families affected during the pandemic for example some of the volunteers they give **Wi-Fi facility** to the students of poor families to attend classes online, some of the volunteers **taught the students of poor families**. One of our volunteers who is trained **in treating the pets** she took care of the pets of families

affected with covid at gadvasu i.e animals hospital in Ludhiana. sudhar, raikot, mullanpur, Jagraon, Dolon Kalan, lohgarh, shwan khurd, Bhaini Baringan , mohie, Ghuman, boparai, khadoor, aitiaana, rakba

### **Medical essentials Team**

The medical Essentials team also actively helped the people during his 20 days one of our volunteers Perna Shukla will tell you about the help we have rendered. In addition to this the students distributed masks and sanitizers to the needy people and also food packets to the Healthcare workers

### **Psychosocial Support Team**

Another significant impact of this pandemic was on the mental health of the people, many people lost their nice so they were many families in which there was a loss of a family member or two and people were actually getting depressed. so one of a students of a class Harleen Kaur who is already very active in social activities she had set up an Eco club which was earlier engaged in Environmental activities but during these 20 days this club actively engaged self in giving healing to people suffering from covid or from post covid effects. The therapy was called the **alternate medicine therapy** in which healing was given in the form of prayers and positive vibrations more or more like **Reiki** healing she will her self tell her experiences. A **gratitude whatsapp group** was also launched parallel to it where people healed fro covid thanked God for the blessing many other **volunteers engage themselves in providing counselling to families affected by covid.**

**50 NSS volunteers registered for the UNICEF-Mo YAS- YuWaah** Young warrior Programme. The students also pledged to take action against COVID-19 by posting a phrase on their social media apps (Facebook/instagram) “I AM A YOUNG WARRIOR” and tagged their friends as well. Four students of the college namely Happy Sohal, Arshdeep Singh, Nisha Rani and Jaspreet Kaur , pooja verma completed five tasks each as assigned by ministry of youth affairs and support and received their completion certificates under the young warrior programme of UNICEF At the end I on the behalf of GHG khalsa college of education, gurusar sadhar

We at GHG Khalsa college of education pledge to serve the people in future and render our services as dutiful citizens by accomplishing tasks assigned by the government and contributing in national development and growth.
