OF EDUCATION,
Gurusar Sadhar (Ludhiana)

Introduction

The waste management policy of G.H.G Khalsa College of Education Gurusar Sadhar is based on using a basic waste management strategy of separating, reducing, reusing and recycling the waste. College is committed to make maximum efforts to reduce, reuse and recycle the waste produced in the campus, eliminating the adverse impact of waste material on human health and environment.

The Policy Vision

The policy envisions a community which is acutely conscious of the anthropogenic condition of the world and therefore strives to create an ecologically healthy, prospering and resource efficient community, where waste is considerably reduced, recycled, reused and disposed of using environmentally friendly safe methods.

Objectives of the Policy:

Segregation of the waste

- To collect and separate food waste and non-biodegradable waste in separate bins

Reducing the waste

- To follow paperless practices in the office and academic work by making use of information and communication technology (ERP and Learning Management System) thereby reducing the wastage of paper.
- To replace use and throw items like plastic cups, plates etc. used in the college canteen by reusable items like steel glasses and plates.
- To reuse the other side of the printed paper for writing/printing purpose.

Reusing the waste

- To use the strategy of reuse in managing the waste produced in the College like best out of waste, teaching learning material preparation and for preparing hanging/vertical garden.

Recycling the waste

- To use biodegradable waste like garden waste, dried leaves, waste papers etc. in preparing organic manure and compost through the process of vermicomposting.
- To help recycle the e-waste like obsolete electronic devices i.e. computer systems, server, monitors, compact disc, printers, scanners, fax machines, battery cells etc. by selling them to vendors collecting e- material.
- To help recycle the paper waste in the form of old newspapers/magazines etc. by selling them to the authorized vendors.

Awareness Programmes for Clean Environment

- To educate and make the faculty and students aware of the importance of proper waste management practices.
- To organize various awareness campaigns through the NSS Unit, various clubs and societies of the college for maintaining and cleaning the environment in and around the college campus.
- To put various signages in the campus relating to the effective waste management practices.
- To celebrate the days dedicated to environmental awareness like Environment Day, Earth Day, National Science Day, World Water Day, World Bicycle Day etc.
